

NAPLAN Online Goes Ahead

12 February 2018

Janison is pleased to confirm its participation and support for NAPLAN Online 2018 as announced by the Federal Government in January.

Under the terms of our National Assessment Delivery System contract, Janison will host and support the platform to provide the delivery and marking of online tests in May for Numeracy and Literacy for Years 3, 5, 7 and 9 in all states and territories of Australia.

The NAPLAN testing platform has been developed over the last five years for the Australian Government and is designed for use by all states and territories for NAPLAN Online and other online assessments. It includes support for tailored or adaptive testing, which analyses a student's performance as they take a test and adapts the test to match the student's achievement levels. This approach provides more precise measurement of a student's performance than is possible with a paper test.

Janison developed the technology for the platform and provides the support and hosting for the NAPLAN platform.

More about NAPLAN and the NAPLAN Online project can be found at the following address - nap.edu.au/online-assessment
